Change log

Date	Change Description
2021-05-04	Initial release.

Introduction

This document provides the following information for the Fortinet IPS Engine 7.0 build 018.

- [Product integration and support on page 6](#)
- [Resolved issues on page 7](#)
- [Known issues on page 8](#)

IPS Engine 7.0 build 018 is a built-in release for FortiOS 7.0.0. It is not a release to FortiGuard.

For additional FortiOS documentation, see the [Fortinet Document Library](#).

Product integration and support

The following table lists IPS engine product integration and support information:

FortiOS	7.0.0
---------	-------

Resolved issues

The resolved issues listed below do not list every bug that has been corrected with this release. For inquiries about a particular bug, contact [Customer Service & Support](#).

Bug ID	Description
580391	Unable to create MAC address-based policies in NGFW mode.
638341	In some cases, IPS fails to get interface ID information that results in IPS incorrectly dropping the session during static matching.
645848	FortiOS provides self-signed CA certificate intermittently with flow-based SSL certificate inspection.
646961	Explicit FTPS data channel cannot be established through policy when in flow-based inspection mode with AV enabled.
669138	IPS engine crash (segmentation fault and alarm clock).
676705	Custom IEC-104 app-ctrl signatures skipped after signature database update.
683669	Firewall schedule settings do not follow daylight savings time.
688888	bzip2 including eicar is detected in the original direction of the flow mode firewall policy even though scan-bzip2 is disabled.
691196	One Arm IPS URL filter cannot block HTTPS websites.
691395	Signature false positives cause outage after IPS database update.
695441	Not getting past block/override page or warning page when doing a web filter override in flow mode.
695774	Remote category flow and proxy mode wildcard matching difference.
696753	Chassis multiple IPS crashes and UTM web filter impact after enabling web filter content-header.
696819	[TAM/G2]:IPS archive timestamp dated from 1970.

Known issues

There are no known issues with this release of IPS engine version 7.0 for FortiOS.

To report a bug, please contact [Customer Service & Support](#).
